### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 3 line 15 & Claim 7 line 20: "a phase data generator for generating phase data" has been changed to "the phase data generator for generating the phase data".

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest, alone or in a combination, among other things, at least a digital circuit for shifting a frequency band of a signal vector to a predetermined frequency band as a whole, the combination of elements and features, which includes a plurality of partial rotators connected in series in descending order of a rotation angle, wherein each of the partial rotators rotates an output of a previous stage by a predetermined angle depending on a corresponding different control bit received from the converter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
